Mr. James A. Saric, Remedial Project Director  
U. S. Environmental Protection Agency  
Region V - 5HR-12  
230 South Dearborn Street  
Chicago, Illinois 60604

Mr. Graham E. Mitchell, DOE Coordinator  
Ohio Environmental Protection Agency  
40 South Main Street  
Dayton, Ohio 45402-2086

Dear Mr. Saric and Mr. Mitchell:

**REVISIONS TO THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY (U.S. EPA)  
EXPERIMENTAL TREATMENT FACILITY (ETF) REMOVAL ACTION WORK PLAN**

Reference: Letter, J. A. Saric to J. R. Craig, "Conditional Approval of  
Revised Experimental Treatment Facility Removal Action Work Plan,"  
dated December 24, 1991

The following revisions are provided in response to the comments made in your  
Conditional Approval letter for the ETF Removal Action dated December 24,  
1991:

**SPECIFIC COMMENT 2**

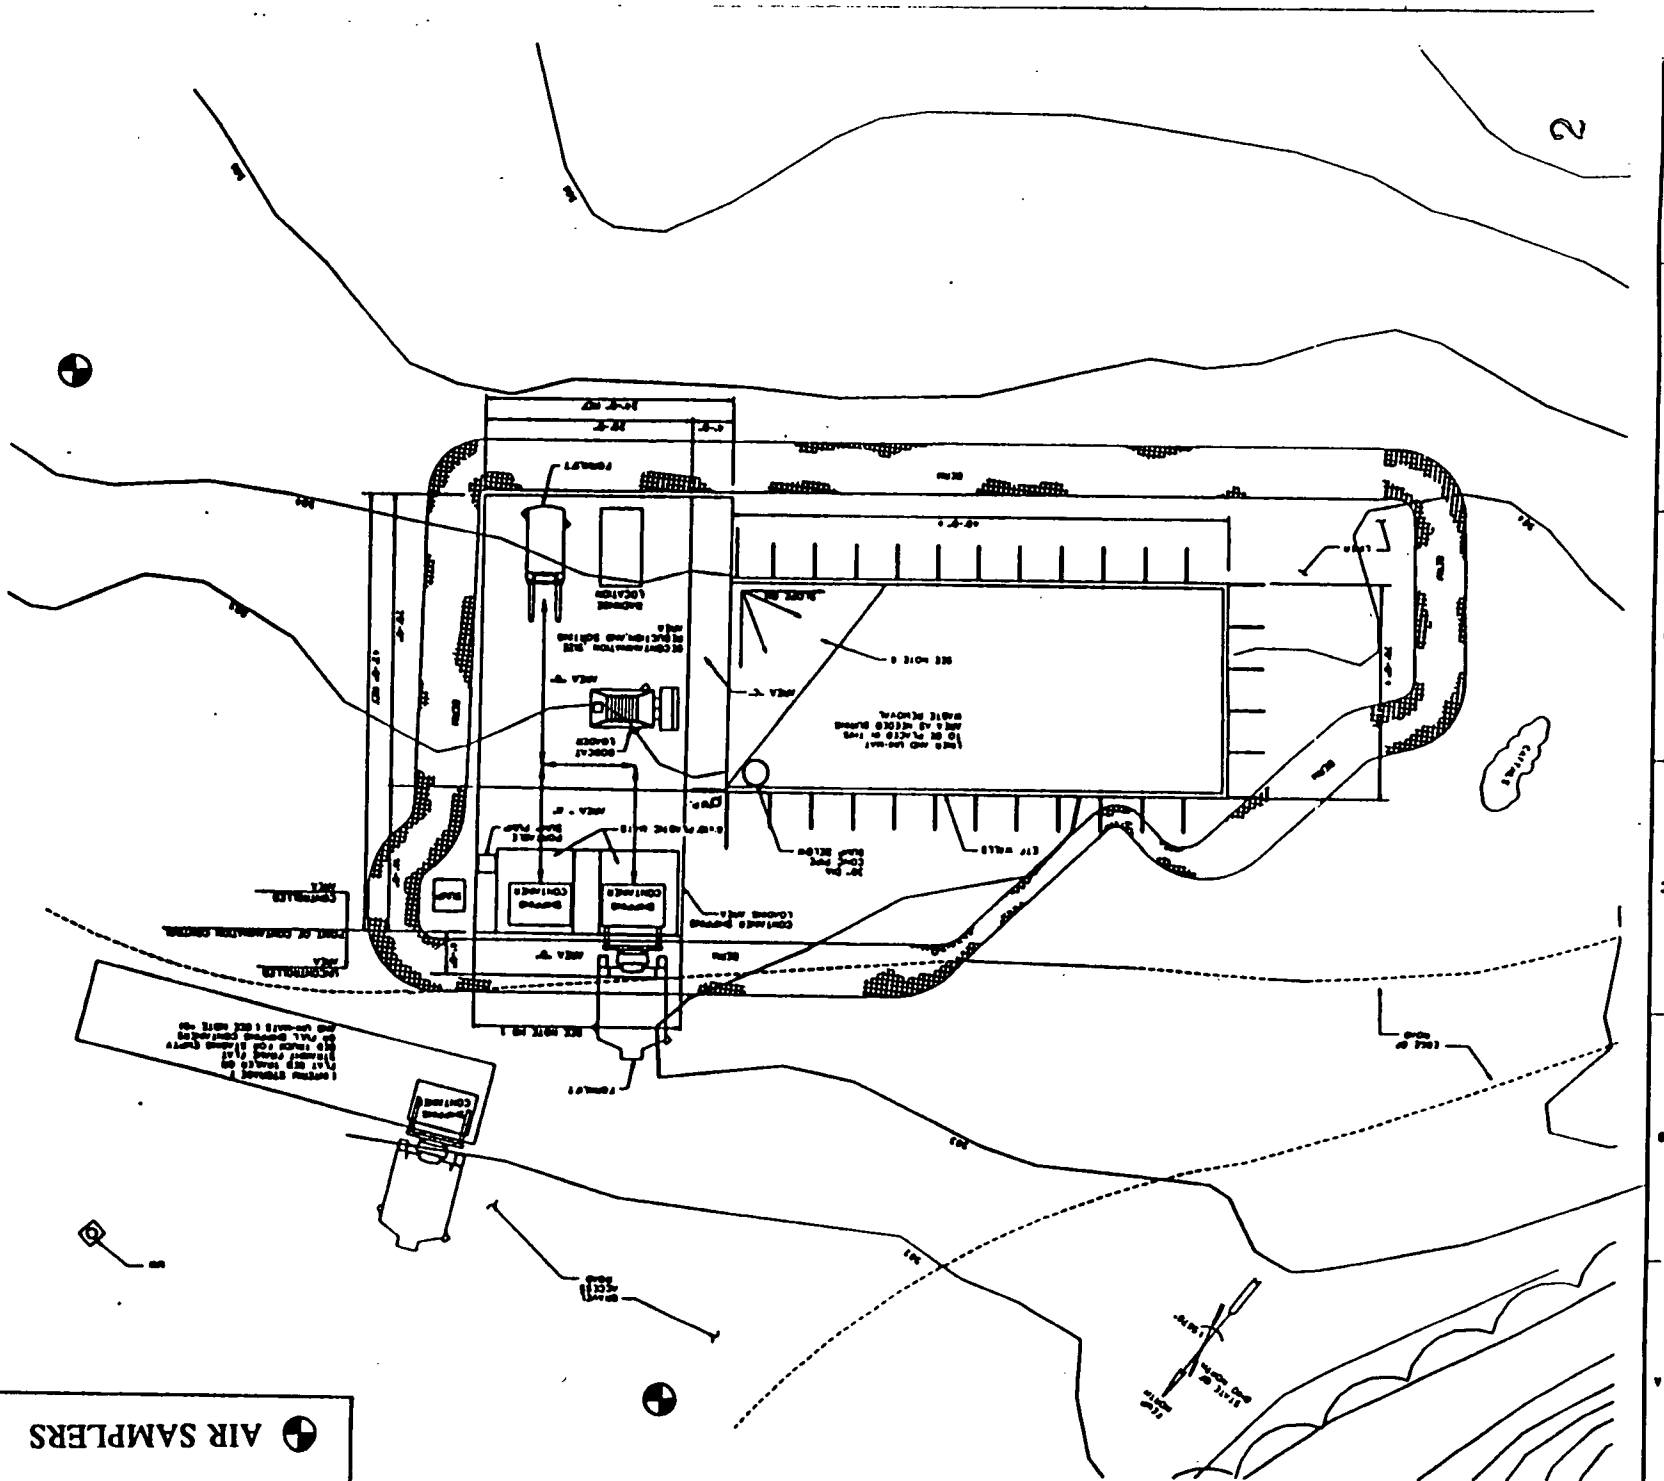

In addition to the analyses specified in section 2.2.4 of the Sampling  
and Analysis Plan, samples collected from the waste materials being  
containerized shall be analyzed for Trichloroethane (TCA).

**SPECIFIC COMMENT 3**

Air samples will be collected prior to and during the subject Removal  
Action. Two high volume air samplers will be installed at the general  
locations identified on the enclosed diagram. The locations selected  
are based on predominate wind direction and may need to be relocated as  
necessary to collect the most representative samples possible during the  
removal action activities. The collected filters will be analyzed for  
total uranium.

This letter will be attached to the ETF Removal Action Work Plan to document  
the revisions to the plan. Contractors conducting this removal action have  
been advised of these specific requirements.

1

If you or your staff have any questions concerning this clarification, please contact Oba Vincent at FTS 774-6937 or (513) 738-6937.

Sincerely,

Jack R. Craig  
Fernald Remedial Action  
Project Manager
